**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Years ago I changed my internet service provider from AT&T to Sonic, where the service is exponentially better. The phone service is better because I can screen out robo-calls. The service is better when I need help, much, much better.

Regarding my health, the internet service with broadband is better because of my sensitivity to wireless electro-magnetic radiation. Many people are sensitive to wireless EMR, and are sickened by it.

Competition among internet service providers must be saved in order to preserve (rather, save) our true democracy. We need you to give the highest priority to the needs consumers and small business owners. I urge you to save and support broadband competition.

Sally Nelson
